LARGE PURE WHITE PHALAEOPSIS SEEDLINGS

Cross No.

#22 PHALAEOPSIS KAREN (Phal. Katherine Siegwart "var. Helvetia" 1 3/4" \$1.75
X P. Doris "var. Autumn") Please see #24 for description of P. Katherine Siegwart "var. Helvetia". The P. Doris "var. Autumn" used in this Community
cross is an unusually early blooming variety which begins to open its Pots
flowers in the Fall and is very round and compact. This mating is expected to produce an abundance of good flowers for the Holiday Season. \$12.00

#24 PHALAEOPSIS KATHERINE SIEGWART "VARIETY HELVETIA" This is a mating of our two finest of this variety, and we expect plenty of large 1 3/4" \$1.75
heavy textured pure white flowers that will last for months on the plant. The parent plants are excellent flower producers that start blooming about Christmas time and continues through June. The flowers are exceptionally large (measuring up to 5 inches across), their texture is extremely heavy and they are very long lasting. These plants although slower growers than most others, produce excellent bloom that are heavy and can be shipped to market anywhere. Community
Pots
\$12.00

#25 PHALAEOPSIS KAREN (P. Katherine Siegwart "var. Helvetia" X 1 3/4" \$1.75
P. Doris "var. The Best") Please refer to #24 for description of P. Katherine Siegwart "var. Helvetia". The P. Doris "var. The Best" used here was one of the finest and largest we have seen anywhere, and the flowers are well shaped and paper white in color. Community
Pots
\$12.00

#26 PHALAEOPSIS DORIS This is a self cross of one of the largest 1 3/4" \$1.75
and finest of "THE" original P. Doris, and was made to fill the demand for 2 1/2" 3.50
plants of this fine white Phalaenopsis whose name is so well known to orchid growers everywhere. These are very strong seedlings ready for transplanting to larger pots. (No communities available)

#39 PHALAEOPSIS KATHERINE SIEGWART "variety HELVETIA X P. RIMESTADIANA "variety HELVETIA", A.M., A.O.S. (See #24 for description of P. Katherine Siegwart) P. Rimestadiana, "var. Helvetia, A.M., A.O.S." is no doubt one of the finest white Phalaenopsis in the country. It has very large, heavy textured flowers of long lasting qualities. This plant was awarded first place in the 1948 South Florida International Orchid Show held in Miami as the finest white Phalaenopsis in the show. These seedlings are much stronger growers than the P. Katherine Siegwart itself. Community
Pots
\$12.00

The above Phalaenopsis seedlings in 1 3/4" pots may be purchased at the low price of \$1.50 each on orders of 10 or more of a kind. Write us your needs for special prices on large quantities.

The community pots listed above contain from 20 to 30 plants per pot. Individual plants of the community size may be purchased in lots of 5 or more at the price of 75¢ each for good plants shipped bare root out of pots. No orders accepted for less than five (5) of these community size plants.

Cross No.

#S-3 PHALAENOPSIS LEDA (P. Amabilis X P. Stuartiana) This is a 3" To 3½" pots very pretty little white Phalaenopsis that blooms prolificly and should \$3.50 each be a very welcome addition to any collection.

#240 VANDA ROSE MARIE X VANDA TERES "VARIETY ANDERSONII" These are very strong seedlings about 8 inches high and should bloom in less 2" \$2.00 than two years at their present rate of growth. This variety should be larger and finer than the popular Miss Joachim type of Vanda, and should be grown out of doors in the sunlight as much as possible.

#193 DENDROBIUM THWAITESAE "VEITCH'S VARIETY" X DEN. AINSWORTHII Mating the beautiful yellow D. Thwaitesae with the cream D. Ainsworthii should produce beautiful shades of yellow bloom in the early spring. $1\frac{3}{4}$ " - 1.50

#476 DENDROBIUM PHALAENOPSIS SCHROEDERIANUM "DIXON'S STRAIN" These are undoubtedly some of the darkest D. Phalaenopsis ever raised. Blooming size plants in 3 inch and 3½ inch pots. \$7.50

#235 DENDROBIUM PHALAENOPSIS SCHROEDERIANUM "DIXON'S STRAIN" This is the very same dark D. Phalaenopsis as above, but much larger plants in pots of 4 to 5 inches in size. \$15.00

* CATTLEYA MENDELII Nice plants in 4½ to 6 inch pots 5 to 7 bulbs 5.00

* CATTLEYA TRIANAE Nice plants in 4½ to 6 inch pots 5 to 7 bulbs 5.00
Larger plants 7.50

* CATTLEYA MOSSIAE Nice plants in 4½ to 6 inch pots 5 to 7 bulbs 7.50
Larger plants 10.00

* CATTLEYA BARBARA WHITE A very nice hybrid somewhat resembling C. Enid. It is a variable bloomer, but seems to flower mostly in the winter. These are all strong plants in 4½ to 6 inch pots. 7.50 to 10.00

* LAELIOCATTLEYA TIBERTA (Lc. Ibbie X C. Bertii) A very fine hybrid of the medium size, but one which blooms very prolificly in the fall and winter season. It is not at all unusual to have 7 to 9 bloom per spike. 15.00 These are all very large plants measuring 18 to 30 inches in height.

* LAELIO CATTLEYA IBBIE X C. LEDA Another very fine hybrid that is almost identical to Lc. Tiberta above in every respect, but usually has bloom that are a little darker in color. Some of these are quite dark. 15.00 These plants are also very large like the above.

* MATURE CATTLEYA HYBRIDS We have hundreds of varieties of commercial types of hybrids that are too numerous to list or describe in detail. We can supply strong plants in 5 to 6 inch pots at prices of \$10.00 to \$15.00 per plant. Write us giving your preference as to season and we can give you a list of a few to select from. Better yet, leave the selection of variety to our judgment, and we are sure you will be pleased with the plants you receive.

* CATTLEYA DIVISIONS We also have many divisions of these fine plants that should bloom in 12 to 18 months at \$5.00 to \$7.50 per plant. All divisions have been well established for at least one year and are growing strongly.

- #2 LAELIOCATTLEYA EMINENCE "VARIETY OUTSTANDING" X C. AMABILIS 1 3/4" \$1.50
With the large percentage of C. labiata in this hybrid, we believe this to be a good cross for use in controlled flowering period work. These plants should normally flower in the late fall, but by using lighting control, they can be flowered at Christmas or later holiday periods when prices are high.
- #RJ-5 BRASSOCATTLEYA IMPERIALIS X C. MOSSIAE A very fine large Brasso is expected here for the Easter season. 2 1/4" \$3.00
- #7 LC. HERTHA X C. BELGICA This is a second crossing of a very fine hybrid that has proven itself to be a dependable one for the Christmas Season. The flowers are heavy textured and good dark color. 1 3/4" \$1.75
- #145 BC. HARTLAND X (LC. PAMELA X C. GATON RUBY) Bc. Hartland is one of the finest shaped and darkest Brassos we have ever seen. This mating should produce one of the finest BLC's ever raised. (A few have already flowered and were very exceptional in every respect.) 3" \$5.00
3 1/2" 8.00
- #146 BLC. DRYADES X BC. HARTLAND Another very exceptionally fine BLC. Which will probably flower in the winter. The color will be dark and fine. 3" \$5.00
- #152 C. EDITHAE X (C. LADY VEITCH X C. WHITE EMPRESS) A very fine free flowering pure white for winter and spring months. 2 1/4" \$3.00
- #147 C. EDITHAE X LC. CYNTHIA ALBY A good white with colored lip is expected from these fine parents. It is a very strong grower. 2 1/4" \$3.00
- #157 C. ELLA MAE SUTTON (****) X C. TRIANAE ALBA A very fine white with very large and full sepals and petals should be the result of this fine mating. A winter blooming season is assured. 2 1/4" \$3.00
- #163 C. FABIA X LC. MAX J. PALM Both of these parents were exceptional flowers of large size and fine dark color. The combination should produce the kind of large dark bloom that are always in demand. 1 3/4" \$1.50
2 1/4" \$3.00
- #167 C. ENID X C. TITYUS A fine dark hybrid. A profusion of fine dark flowers during the winter season will be the result of this cross. 1 3/4" \$1.50
- #171 C. TRIUMPH X LC. JACQUINETTA These plants are expected to be a heavy producer, and may be expected to flower on each new growth as it is developed. The color should be a fine dark. 1 3/4" \$1.50
- #347 LC. PAGE PLATT X LC THURGOODIANA These fine seedlings will produce nice sized flowers ranging in color from a nice bronze to good yellow sepals and petals. The lip will be a rich reddish purple. 1 3/4" \$1.75
- #358 C. GLORINETTE X C. ENID This should indeed make a very fine hybrid. C. Gloriette is a very fine large flower with a wide dark lip, and is one of the parents of the world renown C. Stalin. The season should be winter and variable, possibly blooming with each new growth. These seedlings are very vigorous growers. 1 3/4" \$1.75
2 1/4" \$3.00
- #433 C. MAGGIE RAPHAEL X RAPHAELEDA This cross will be a sure thing for the holiday season at Christmas time. The color will be dark with even darker lip. 1 3/4" \$1.75

Cross No.

- #434 C. MAGGIE RAPHAEL Not much needs to be said for this old dependable hybrid. It flowers in the winter around Christmas time and is a good dark color with very dark lip. 1 3/4" \$1.50
- #427 C. ARDMORE X C. MOSSIAE These were both very outstanding flowers and will produce many good flowers for the Easter Season when demand is great. 1 3/4" 1.50
- #542 C. ENID ALBA This is the old dependable C. Enid in its finest form, WHITE with purple lip. An earlier batch of this cross has proven this to be an outstanding white that flowers very freely and always puts out most of its bloom in the winter. 1 3/4" 1.75
2 1/4" 3.00
- #543 C. MOSSIAE "REINECKIANA" (YOUNG'S VAR.) X C. PRINCESS ROYAL ALBA Spring flowering hybrids that are white with purple lip will make this a very valuable cross. 1 3/4" 1.75
- #545 C. MOSSIAE "REINECKIANA" (YOUNG'S VAR.) X C. DIONYSIOUS ALBA Another bid for the spring blooming white with colored lip. This should bloom a little later than the one just above, and hip May and June. These plants are very strong growers. 1 3/4" \$1.75
2 1/4" 3.00
- #547 CATTLEYA MARION PATTERSON (C. Marion Davies X C. Trianae "Broomhill's Var.") Pure white hybrids that are sure to help fill the demand during both St. Valentine's and Easter, will come from this wonderful mating. It would be hard to find two better parents. C. Trianae "Broomhill's Var." has produced truly wonderful hybrids and always breeds true to form. 1 3/4" \$1.75
2 1/4" 3.50
- #548 C. INTERTEXTA "JULIETTE" X C. TRIANAE "BROOMHILL'S VAR." If you are after strong growing pure white hybrids that will give heavy bloom production, this cross will do it. Both parents are exceptional in these respects, and the season will be winter. 2 1/4" \$3.00
- #551 C. ENID ALBA (XXXX) BEST X C. MRS. FREDERICK KNOLLYS Very large and fine white with colored lip flowers for the late winter are assured from these strongly growing seedlings. 1 3/4" \$1.75
2 1/4" \$3.00
- #552 C. MLE LOUISE PAUWELLS (C. Edithae No. 1 (XXXXX) X C. Intertexta "Juliette") Very fine pure white flowers for Easter and Spring are produced by this already famous hybrid. 2 1/4" \$3.00
- #554 LC. AMERICAN SECURITY (C. Royana X Lc. Princess Margaret) C. Royana is an exceptionally strong growing Cattleya of large size. Its color is very dark with excellent dark lip with a nice suffusion of yellow. A union with Lc. Princess Margaret should make a great hybrid for the months of May, June and July. 1 3/4" \$1.75
2 1/4" \$3.00
- #557 (C. DINAH X LC EXCELSIOR) X C. MOSSIAE "R. E. PATTERSON" A fine hybrid for Easter is the aim of this cross. The Mossiae is very dark and very fine, and the hybrid it is mated with has a splendid shape and an extra dark lip. 1 3/4" \$1.75
2 1/4" 3.00
- #558 C. ROYANA X C. R. CADWALADER High quality hybrid bloom for the season of May and June when the demand is strong will be produced by these seedlings. These are the strongest growing seedlings we have to offer. 2 1/4" \$3.00
3 1/2" 7.50

Cross No.

- #564 LC. ARTHUR E. MILES (Lc. Sagana "Var. Easter" X C. Mossiae) A 1 3/4" \$1.75
remake of an earlier hybrid that has proven itself to be an excellent and 2 1/4" 3.00
dependable hybrid for the Easter season.
- #565 C. ENID ALBA (C. Mossiae "Reineckiana" Young's Var X C. Gigas 1 3/4" \$1.75
"F.M.B.") The old reliable C. Enid again -- Only this time in its finest 2 1/4" 3.00
form - White with purple lip. An earlier batch with these same parents
has proven to be an outstanding white that flowers very freely and always
in the winter.
- #566 LC. BOU PHILLIPPO (Lc. Windermere x C. Mossiae "R. E. Patter- 1 3/4" \$1.75
son") Another old dependable hybrid remade. This cross always flowers in 2 1/4" 3.00
the spring when flowers are in the greatest demand. It is a free grower and
a very good producer of bloom.
- #569 BLC. EVA PATTERSON X C. BELGICA, A.M., A.O.S Here is the 1 3/4" \$1.75
making of a very excellent hybrid of large size and very fine shape for 2 1/4" 3.50
the Holiday Seasons of Christmas and New Year's Day. The C. Belgica used
here received an Award of Merit at the A.O.S. Meeting in December 1947,
and is truly an excellent flower.
- #571 LC. DERRYNANE "VAR HENRIETTA PATTERSON" X C. ROYANA (EXTRA 1 3/4" \$1.75
FINE) Mating these parents will produce one of the best new hybrids to be 2 1/4" \$3.00
had anywhere. Both parents are very exceptional, and the seedlings are
very strong growers.
- #575 LC. ERNIE PYLE (Lc. Altesse x C. Mossiae "R.E.Patterson") 1 3/4" \$1.75
Winter and spring flowers in quantity as well as quality. These seedlings 2 1/4" \$3.00
are very strong growers and should flower very young if an earlier batch
of this same identical cross is any guide. One plant bloomed just three
years and four months from seed.
- #577 LC. GEORGE E. BALDWIN (C. Enid "var. Orchidhaven" x Lc. Prin- 1 3/4" \$1.75
cess Margaret) Very little needs to be said for this hybrid that has won
a great many awards during the past ten years since it flowered for the
first time. The flowers are always large and well shaped with excellent
substance and usually dark. Here in Florida there is rarely a time that
we do not have plants of this in bloom, but they seem to do most of their
blooming during May and June for us.

CONDITIONS OF SALE

1. Orders will be filled in the order that they are received.
 2. We do not make a packing charge, but cannot accept orders for shipment of less than \$5.00.
 3. Unless otherwise advised, shipment will be made via Railway Express, Collect. (All orders are F.O.B. St. Petersburg.) However for faster service to distant points and in cold weather we recommend Air Express (or Air Freight on large orders). All shipments to Hawaii are made via Air Mail Parcel Post. In order to save time to this area, our firm will advance the necessary postage, but in return ask that you remit the cost promptly upon receipt of bill for same.
 4. Our firm has been properly authorized to handle shipments to Hawaii, but first the customer must forward with his order his permit which he must obtain from the board of Commissioners of Agriculture and Forestry, Honolulu.
 5. Unless your credit has been established with us, kindly enclose check, Money order or bank draft to cover payment of your order in full.
- Note: Our seedlings in 1 3/4 inch pots are strong plants ready for transplanting to larger pots and will average five (5) inches high.
